From the Principal's Desk

At AIS, the educational journey of our children is happy with wonderful experiences and beautiful memories to cherish. Our school is committed to developing socially responsible citizens in a safe creative and educationally challenging environment that encourages students to be clear about their values and ethics. Our goal is to build a sense of community and trust between children, parents and staff. We mainly focus on empowering our students with their leadership skills by providing them a platform to enhance different attributes. The school's continued partnership will ensure that our pupils continue to learn, progress and reach their potential holistically.

Ms. Athiya Parveen Babi
Principal, AIS

A Joyful Beginning: First Day of Kindergarten

The first day of Kindergarten was a heartwarming blend of excitement, curiosity, and new beginnings. As tiny feet walked into the classroom, they carried with them wide eyes, innocent smiles, and a world of wonder.

The day began with warm welcomes, cheerful greetings, and gentle reassurance from the teachers. For many little ones, it was their first step into a new world away from home — and they stepped in with courage and spark.

Earth Day at Kindergarten – Loving Our Planet! 🌱

Earth Day was celebrated with joy, color, and care by our youngest learners — our Kindergarten stars!

The little ones came together to understand the importance of protecting our beautiful planet. Through fun and engaging activities, they learned how even small hands can make a big difference!

International Yoga Day – Little Yogis in Action!

On International Yoga Day, our Kindergarten children at AIS stepped onto their colorful mats and into the world of calm, balance, and joyful movement. With tiny hands folded in namaste and smiles on their faces, our little yogis explored the magic of yoga in the most playful and meaningful way!

Father's Day – Celebrating Our Super Dads!

Our little learners made Father's Day extra special with smiles, surprises, and lots of love!

To honour the everyday heroes in their lives, our Kindergarten children celebrated Father's Day with heartfelt activities and joyful moments dedicated to their Super Dads.

Happy Father's Day

Doctor's Day – Thank You, Real-Life Heroes!

Our little ones celebrated Doctor's Day with admiration and gratitude for the superheroes in white coats who care for us every day!

Though small in size, our Kindergarteners have big hearts — and they used their creativity and cheer to say “Thank You, Doctors!” in their own special way.

A Meaningful Birthday Celebration! 🌱📖

We believe birthdays are not just about cakes and balloons — they are a beautiful opportunity to give, grow, and make a difference.

This year, we encourage our little ones to celebrate their birthdays in a joyful and eco-friendly way by contributing a book or a sapling to the class or school library/garden.

Namaste India – A Colourful Celebration of Our Incredible Nation! 🌈

Our tiny tots at AIS celebrated “Namaste India” with pride, joy, and a whole lot of love for our beautiful country!

The event was designed to help our youngest learners understand and appreciate the rich culture, diversity, and heritage of India — through colours, costumes, music, and fun-filled activities.

World Postal Day – A Letter of Love from Kindergarten!

On World Postal Day, our tiny learners explored the magic of letters, post offices, and the people who help us stay connected — our postmen and postwomen!

This special day was filled with curiosity, creativity, and adorable "postal adventures" that introduced children to how mail travels from one place to another.

International Tiger's Day – Roaring for a Cause!

Our Kindergarten children celebrated International Tiger's Day with excitement and a big roar of love for wildlife!

Through stories, songs, and creative activities, the little ones learned about the majestic tiger — our national animal — and why it's important to protect and care for them.

Sports Day – Little Feet, Big Dreams!

Sports Day at AIS was a celebration of energy, enthusiasm, and endless fun as our youngest champions took up the field with big smiles and determined hearts!

Our tiny tots participated in fun races and games designed just for them — because in Kindergarten, it's not about winning, it's about participation, teamwork, and joy!

STEM skills

We believe that even our tiniest learners can explore the wonders of Science and Math — through play, observation, and hands-on experiences! Our specially designed Science and Math Lab activities turn simple concepts into joyful learning moments, helping children discover how things work, count, sort, compare, and ask “why?”

Montessori Lab – Learning with Hands and Heart

Montessori Lab is a vibrant space where young minds bloom through hands-on exploration. Using age-appropriate materials and child-led learning, the lab encourages independence, concentration, and joyful discovery.

The Montessori method is rooted in the idea that children learn best by doing, and our tiny tots get to engage in activities that develop practical life skills, sensory awareness, and early academic concepts.

Learning Beyond the Classroom – Where Curiosity Leads

We believe that learning doesn't stop at the classroom door — it extends into the world around us. Our Kindergarten children experience education that goes beyond books, walls, and whiteboards through joyful, hands-on experiences that spark wonder and discovery.

“Learning Beyond the Classroom” means giving children the chance to explore, imagine, move, question, and connect with real life. These experiences lay the foundation for meaningful understanding and lifelong learning.

Colours Day – A Splash of Joy and Creativity!

Colours Day at AIS was a bright and beautiful celebration that turned our Kindergarten into a rainbow of smiles and creativity!

Festivals and celebrations-Learning through joy

At AIS, festivals and celebrations are not just special days — they are opportunities for our Kindergarten children to explore traditions, build cultural awareness, and create joyful memories.

Through colourful decorations, music, dance, and hands-on activities, children are introduced to the rich diversity of our country and beyond. These celebrations help instil values of unity, respect, gratitude, and joy in togetherness.

Field Trip Fun - Learning Through Exploration!

Our Kindergarten children recently embarked on an exciting field trip that brought learning to life beyond the classroom! With eyes wide open and hearts full of excitement, our little explorers experienced the world in the most joyful and hands-on way.

Our children visited to farm, traffic park and supermarket. the field trip offered children a chance to connect what they learn in class with the real world around them.

Story Time – Where Imagination Comes Alive!

At AIS, Story Time is one of the most magical parts of our Kindergarten day! With wide eyes and eager ears, our little listeners are transported to the world of talking animals, brave heroes, kind fairies, and valuable life lessons.

Story Time is not just about reading books — it's about developing language skills, listening habits, imagination, emotional awareness, and a lifelong love for reading.

Dental Camp 🦷

Our school organized a Dental Check-up Camp where doctors examined the students and taught them the right way to brush and care for their teeth. Children enjoyed the session and learned that a healthy smile is the best smile!

Closing Note – Term 1

As we come to the close of Term 1, we look back with pride at the learning, activities, and achievements that shaped our children's journey. The term was filled with curiosity, creativity, and joyful moments that helped our students grow both in knowledge and confidence.
